Subject: RE: Wedron schedule
Steve,

We recently obtained property ownership confirmation from LaSalle County. IL Railway owns the property and confirmed this information as well, so we have access to move forward. We are in the process of confirming drilling dates with the contractor and obtaining another permit from LaSalle County to leave the drums in the right-of-way for temporary storage. I need to obtain a new permit for each specific drilling event (exact dates required) per the County. I will let you know as soon as the permit is approved and the drilling event is scheduled.

Thanks,

Luisa Price

Subject: RE: Wedron schedule
Mary and Luisa,

What is the status on completing the sampling in Wedron, Illinois at the former Standard Oil Bulk

terminal? As I stated to you in my last correspondence, Wedron Silica does not own the property in your proposed route to complete the sampling. Have you reached out to Illinois Railway, Mr. Ken Rose? Do you have verbal or written access? When are you going to complete the sampling?

Steve,

Mary requested that I send you a copy of the access agreement we sent to Fairmont Minerals (attached) to help us secure access to complete the borings. Also, below is the contact information we sent the agreement to.

David Crandall
VP, General Counsel & Secretary
Fairmount Minerals, Ltd.
8834 Mayfield Road
Chesterland, Ohio 44026
O: 440.279.0202
C: 216.233.0553
F: 440.719.0265

We have not yet received the analytical results from the samples. We should receive them next week. I will send them to you as soon as they have been reviewed/validated and tabulated.

Thanks,

Luisa Price

Subject: RE: Wedron schedule

Luisa and Mary,

What is the status with your request for access to complete the sampling along the tracks in Wedron? We were told by Fairmont Minerals that the request for access came in and was requesting to leave equipment on the property. Do you have access and when are you going to complete the sampling? If you need assistance obtaining access I have offered to assist and have not heard anything from you.

Please send me the results from the first soil borings. I would like to see the hard copy data and the tables that you have prepared.

Subject: RE: Wedron schedule - 1/24/14

Steve,

BP will need to receive something in writing from Fairmont Minerals that grants access to the driveway. We have sent an access agreement to FM and are waiting to hear from them. If there is a quicker way to secure something in writing, please let me know.

Thanks,

Luisa Price

Luisa,

When are you going to schedule the completion of the borings. Access is not an issue, we have received clearance from Fairmont Minerals to utilize the drive along Illinois Railway tracks.

Please let me know as soon as possible so I can schedule to be there and to have Weston Solutions on site.

Thanks,

Steve Faryan

Subject: Re: Wedron schedule - 1/24/14

Hi Jay,

We have completed the drilling on the top of the slope. The only activities for tomorrow are the

drum pick-up and confirming measurements.

We will be able to complete the borings on the lower level after we receive access to the Fairmont Minerals driveway. I will let you know if we need any assistance with access and when the schedule has been set.

Thanks,

Luisa Price

Subject: Wedron schedule - 1/24/14

Hi Mary and Luisa,

I just wanted to confirm that there will be no work in Wedron tomorrow. Craig indicated that you did not want to move the geoprobe down the embankment until the snow cover is gone. I anticipate that Wedron Silica will cooperate and grant access to their driveway. We can help coordinate access when you're ready.
